Sir:

In response to the restriction requirement set forth in the Office Action mailed March 3, 2004, having a shortened statutory period for response set to expire April 3, 2004, wherein the Examiner required restriction between the following distinct Species:

- Species I* - Synchronous signal transmission circuit configurations shown in Figs. 1-7, considered to read on claims 1-10;
- Species II* - Asynchronous signal transmission circuit configuration shown in Figs. 8-10, considered to read on claims 11-17; and
- Species III* - Asynchronous signal transmission circuit configuration shown in Fig. 11, considered to read on claim 18.

Applicants elect without traverse, Species I, with claims 1-10 readable thereon, for initial prosecution on the merits.

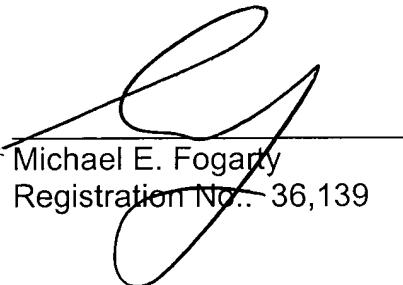

Applicants believe that no extension of time is required. However, this conditional petition is being made to provide for the possibility that Applicants have inadvertently overlooked the need for a petition for extension of time. The Commissioner is hereby authorized to charge any additional fees associated with this communication or credit any overpayment to Deposit Account No. 50-0417. A duplicate copy of this Response is enclosed for accounting purposes.

Respectfully submitted,

McDERMOTT, WILL & EMERY
